WHAT SETS 1-800-STENCIL APART?

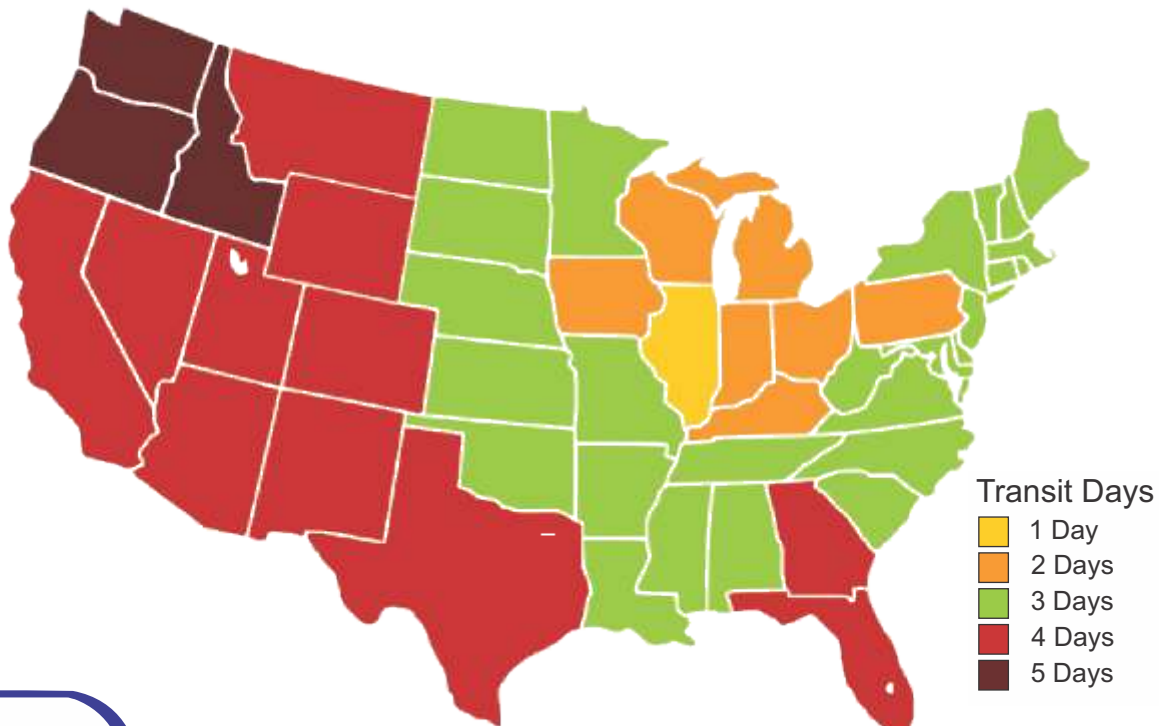

1-800-Stencil is the nation's leading manufacturer of pavement marking stencils. We specialize in short lead times, quick shipping, and excellent customer service. Our office staff has extensive knowledge of the pavement marking process and an appreciation of the needs that may arise on a jobsite. We have paired the office staff with world-class equipment and manufacturing processes to ensure that we are always exceeding expectations for our customers. Our in-stock items ship same day and custom orders

can be turned around in as little as one business day! Expedited shipping and production service is available to ensure that you keep your customers happy!

Here are a few things that really set us apart:

- Full custom capabilities at a reasonable price.
- Direct manufacturer: we are the factory!
- 1-800-Stencil is now part of the RAE Products Family
- Free ground shipping on all orders \$50+
- In-stock orders ship SAME DAY!

FREE GROUND SHIPPING TIME IN TRANSIT MAP

RAE is a family owned and operated company (certified WBE/DBE) located in the Chicago area with distributors and shipping worldwide. Since 1976 RAE has set the standard for providing the industry with the highest quality Marking Paints & Equipment for Pavement Maintenance Companies. Our staff of knowledgeable and technical sales people will help you find everything you need for the Pavement Marking and paint finishing industry. From Industrial OEM Paints & Coatings, to fluid handling pumps and sprayers, to truck-mounted highway striper. Look to RAE for all your marking and paint finishing needs.

MATERIALS

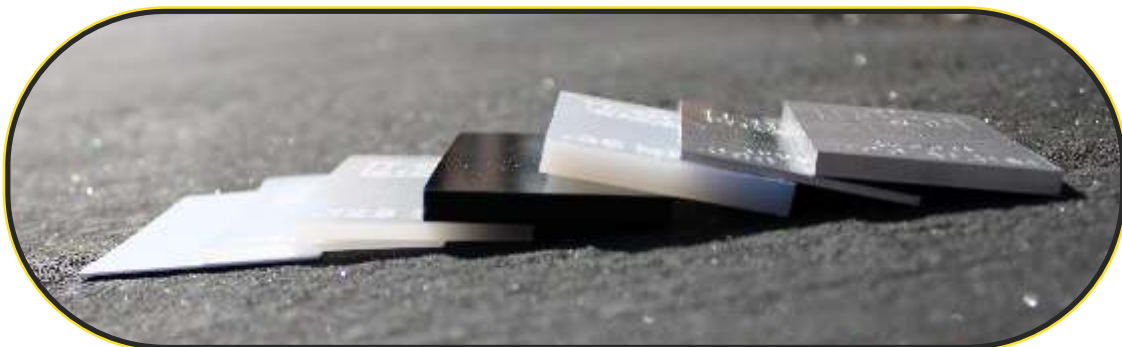

1/8" (.125") LDPE - PRO-Grade, our most common material, typically can be used thousands of times, and with proper care, they can last for many years. Lays Flat, and heavy enough to stay put while spraying up to 3000psi.

1/16" (.063") LDPE - What we call Light-Duty, this material is just as durable as its 1/8" counterpart, however, it is half the thickness and can be flimsy. We recommend this for stencils that aren't used every day.

5/64" (.080") ALUM - Aluminum can last almost forever, you can reuse it and abuse it. It will be ready to work today and in 10 years. The ridged 5052 Aluminum we use is also perfect for thermoplastic extruding, saving hundreds of Dollars per Legend. Shown here in .080" thickness, but it is also available in .190" (6061) which is harder, thicker, and stronger.

1/4" (.025") UHMW - Preferred by municipalities for its superior strength, it can be loaded with many coats of paint and remain rigid without sagging. Ultra-High-Molecular-Weight Polyethylene is highly resistant to corrosive chemicals and highly resistant to abrasion. Shown here in 1/4" thickness, but also available in 3/8" or 1/2" versions.
